eLEARNING

Working alongside Whitehorse Maritime Academy, we are pleased to be adding their eLearning platform to our Compass Superyacht Navigation Hub. This is a valuable addition in our efforts to continue aiding in navigation and training onboard.

Whitehorse Maritime Academy are the UK’s leading provider of MCA Oral exam prep, and dsnm are excited to be able to offer their best-in-class resources for crew training across their fleet.

Their engaging eLearning platform is designed to give Captains and Officers more confidence in their crew’s onboard knowledge and skillset.

These courses are ideal for anyone in the Bridge team, Captains and Officers who have spent an extended period off the water, and any crew looking to progress their career in yachting.

The courses can be completed from anywhere and at the crew member’s leisure, on-board or off, with no time restriction.

COURSES AVAILABLE

- COLREGS
- NAV & PASSAGE PLANNING
- BRIDGE EQUIPMENT
- ENVIRONMENTAL REGS
- BUOYAGE
- METEOROLOGY
- GMDSS
- SAFETY & ISM
- BUSINESS & LAW

COLREGS

This highly interactive course allows you to take a deep dive into the Collision Regulations, breaking each rule down in great detail so you are confident in your understanding. Test your knowledge in the interactive bridge simulator.

The course also closely examines lights and shapes, highlighting tricks to help you remember the basics and laying out the awkward exemptions.

NAVIGATION & PASSAGE PLANNING

This course helps develop an in-depth understanding of chartwork, tides and currents, chart & publication maintenance, watchkeeping best practices, passage planning and more.

[Click to watch video](#)

BRIDGE EQUIPMENT

This module is designed to help you familiarise yourself with all the equipment on the bridge.

The course provides a detailed overview of the vessel's electronic navigation equipment, refreshing your knowledge of the principles, setup and operation.

[Click to watch video](#)

ENVIRONMENTAL REGS

This course goes over all International Environmental Regulations that apply to vessels. This includes MARPOL and those that relate to Ballast Water Management and Anti-fouling. It also has a section on the IMO responses to the threat of climate change.

[Click to watch video](#)

BUOYAGE

The Interactive Buoyage course gives users a detailed understanding of all of the buoys within the IALA Buoyage System.

The course includes a range of quizzes, from matching top marks to taking action on the interactive Bridge, to allow you to test your knowledge as you learn.

SAFETY & ISM

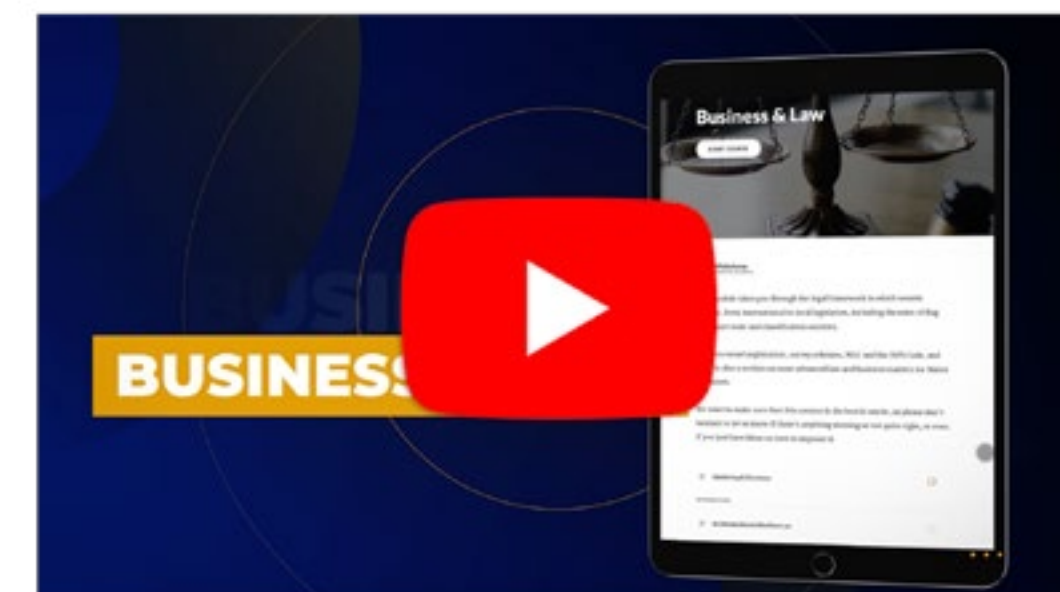

Safety & ISM, created in collaboration with the Marine Society, takes you into the world of safety management, the ISM Code, and essential best practices for key work activities according to COSWP.

[Click to watch video](#)

BUSINESS & LAW

This module takes you through the legal framework in which vessels operate, from international to local legislation, including the roles of flag state, port state and classification societies. It covers vessel registration, survey schemes, MLC and the ISPS Code, and there is also a section on more advanced laws for Mates & Masters.

THE COURSES

dsnm have partnered with Whitehorse Maritime Academy to bring all of these industry-leading, interactive and educational eLearning courses together, under one easy to use package.

The courses are all available and accessible through the Compass Hub. Simply access the course directory through the tile on your dashboard.

COURSE CANDIDATES

The courses can be taken by any crew members looking to further their career as part of the bridge team. They are also useful as a refresher for any Captains or Officers who have had extended periods on land.

The COLREGs and Buoyage courses in particular are often used by Chief Officers to ensure their tender drivers and lookouts meet the required standards.

DURATION - LOCATION - PRICE

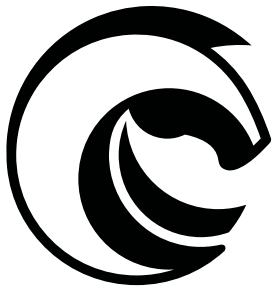

Once you have signed up to access the courses, they can be completed online from anywhere in the world. There is no time restrictions on the courses, therefore they can be completed at your own leisure.

Sign your yacht up for unlimited crew access to all courses for our introductory price of just **£1295** per year (includes all future released courses).

OUTCOME

Upon completion of the different modules, certificates can be issued.

The essential result of the courses is that Captains and senior Officers have confidence that they and their crew are able to operate at the highest possible level and that their knowledge meets the standards expected on board.
