- ✓ Bespoke paper logbooks replicated into digital
- ✓ Day/Night/Auto settings
- ✓ Push Notifications
- ✓ Offline functionality via desktop and tablet app - all data syncs when back in connectivity
- ✓ Customised report suite
- ✓ Data security, full end to end encryption, safeguards against data loss and system failures
- ✓ Manage Subscriptions all from one platform
- ✓ Help section with video guides and FAQs
- ✓ Customer support and live chat

**AUTHORISED BY THE REPUBLIC OF MARSHALL ISLANDS MARITIME ADMINISTRATOR**

The RMI Maritime Administrator has become the first Flag State authorizing eLogbooks MARPOL electronic record books enabling us to provide MARPOL electronic record books for all yachts registered under the RMI flag.

For MARPOL electronic record books to be used in compliance, flag States must authorise them to ensure they are secure and tamper-proof, eliminating the possibility of changeable entries. This move to increased digitisation and authorisation from the RMI Maritime Administrator enables Captains and owners to maintain accurate MARPOL electronic record books in order to comply with applicable MARPOL regulations onboard RMI flagged yachts. Replacing manual entries into a timely, transparent, and verifiable process.

**The following titles have been authorized by the RMI Maritime Administrator:**

- Oil Record Book Part I (Machinery Space Operations) (MARPOL Annex I, Regulation 17.1)
- Garbage Record Book, Part I and Part II (MARPOL Annex V, Regulation 10.3)
- Record of Tier and On/Off Status of Marine Diesel Engines (MARPOL Annex VI, Regulation 13.5.3)
- Record of Fuel Oil Change Over (MARPOL Annex VI, Regulation 14.6)
- Record of Engine Parameters (NOx Technical Code, Paragraph 6.2.2.7)
